

Need a STEM speaker

for your science class or club?

Meet-a-Scientist Program

Would you like a working scientist or engineer to visit your science class or club to discuss what it's like to make a discovery or design solutions to complex problems, what it takes to become a scientist or engineer, and how his/her research fits into their field of study? We have OSU scientists, both faculty and graduate students, who are interested in visiting Columbus area high schools to discuss their area of expertise, the importance of science and engineering in our world and to encourage students to consider a career in these fields.

Please visit <http://sigmaxi.org.ohio-state.edu/> to learn more about the Meet-a-Scientist Program and variations that might best fit your situation. Information on the Meet-a-Scientist Program is in the lower right corner of our home page under 'Meet-a-Scientist' for High School Teachers.

How to schedule a speaker

Please contact Dr. Mark Peeples: peeples.15@osu.edu if you are interested in having a scientist or engineer visit your class or club,
